

**Joe Tuttle** Drummond Explorers 4-H Club: Joe recently graduated from Drummond High School. He plans to attend Purdue University in Indiana and study Agriculture Education with a minor in Portuguese. He would like to become a high school ag teacher and hopes to inspire another generation of 4-H members and agriculturalists. Joe says 4-H means friendship because of all the amazing and interesting friends he has made over the years. Joe has enjoyed moving from buying market lambs to raise to having his own breeding flock. Joe would like to thanks all the people who have helped him throughout his 4-H career, including all the buyers and bidders.
