- Harvest Requirements:**
- This sale is an overstory removal being sold on a Ticket Scale Basis.
 - Sale boundaries are formed by a fence, Randysek Road, red paint, and abrupt timber type changes.
 - Sale has an 8-foot steel fence enclosing the north 56 acres (except a strip between Randysek Rd and the fence). The south 19 acres are outside the fence.
 - The timber sale area inside the fence can be accessed through 2 locked gates. The gates are 20 feet wide. Gates must be closed whenever a vehicle is not going through.
 - **Leave all red and white pine within 100 feet of Randysek Road.**
 - **Harvest all merchantable hardwoods and all pine, except the pine within 100 feet of Randysek Road.**
 - In the sale area, cut all snags that are close enough to fall on the fence. Leave all other snags unless they pose a safety hazard.
 - In some areas the fence is attached to trees instead of fence posts. All of these trees need to be harvested above the fence. Contractor must be able to reach above the fence (8') and cut the tree without damaging the fence.
 - Contractor is responsible for repairing any damage to the fence
 - Damage to the understory regeneration must be minimized.
 - An ATV trail runs through the sale area. The trail must be signed. Purchaser must ensure that harvesting and hauling operations will not create a hazard.
 - Decking of wood along town roads will not be allowed without permission from Bayfield County.
 - If whole tree harvested, 1 in 10 Tops less than 4" in diameter must be left scattered across the site.
 - Do not damage any survey monuments.
 - To comply with the Best Management Practices for Invasive Species: Prior to moving equipment onto or off of the sale area, scrape or brush soil and debris from exterior surfaces of the logging equipment.
 - This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure. (refer to Sec. 17)
