

CALCULATING YOUR FY2018 COUNTY TAXES

To calculate your county tax, multiply your Assessed Value by the County Mill Rate. The Assessed Value is generally between 80 and 90% of the actual value of a property. The estimated 2017 Mill Rate for Bayfield County is 3.83 mills. This means that for each \$1000 in assessed value, you will pay \$3.83. Note the mill levy above is an average and includes the county library levy, for those residents living within a library district already, the levy is slightly less.

Example: If your home/property has an Assessed Value of \$100,000:

$\$100,000 \times .00383 \text{ mills} = \383 for a year of County Taxes.

By dividing this amount over 12 periods, the monthly tax payment for county services can be calculated. In the above example of a property with an assessed value of \$100,000 a property owner would pay \$31.91 per month or a little more than \$1 per day.

Your tax dollars support the following services (Not All-Inclusive):

Sheriff

- DARE Program
- Recreation Enforcement
- Law Enforcement
- Jail and programming

Highway Department

- Roadway Maintenance
- Snow Removal
- Ditch & Culvert Maintenance
